DETAILED ACTION

Response to Amendment

The amendment filed on January 3, 2006 is sufficient to overcome the prior art reference.

Election/Restrictions

Claims 1, 2, 4-17, 19, 21-27, 29-33, 35-47 and 49-51 are allowable. The restriction requirement as set forth in the Office action mailed on March 9, 2005 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Accordingly previously withdrawn claims 12, 14, 17, 40-42 and 44 are hereby rejoined.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim(s) presented in a continuation or divisional application includes all the limitations of a claim that is allowable in the present application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Specification

The amendment to the Disclosure filed January 3, 2006 has been approved by the Examiner. Accordingly the previous Specification and Drawing Objections are hereby withdrawn.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on March 10, 2006 has been considered by the Examiner and an initialed copy is herein attached.

Allowable Subject Matter

Claims 1, 2, 4-17, 19, 21-27, 29-33, 35-47 and 49-51 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or fairly suggest a router attachment system wherein the *lock comprises an actuator carried by the attachment housing, the actuator movable between a lock position and an unlock position* in combination with the rest of the claimed limitations as set forth in claims 1, 15, 27 and 43.

The prior art of record, Hedrick discloses a router attachment system including a router, a mounting adapter, router attachment for mating to the mounting adapter and a means for locking the mounting adapter and router attachment to resist movement. Hedrick discloses the mounting adapter having radial peripheral first mounting surface that mates with an inner radial peripheral mounting surface of the router attachment for attachment of a first type of router attachment. Hedrick however does not disclose the means for locking to include an actuator that is *carried by the attachment housing and is moveable between a lock and unlock position*. Instead, Hedrick discloses a snug fit between the tabs (30), receptacles (36) and stops (31) that lock or secure the mounting adapter to the router attachment (col. 10, lines 28-31). Therefore, Hedrick neither anticipates nor renders obvious the claimed invention as set forth in claims 1, 15, 27 and 43.

Neither the prior art of record nor any combination thereof discloses the claimed invention as set forth in claims 1, 15, 27 and 43. Therefore, claims 1, 2, 4-17, 19, 21-27, 29-33, 35-47 and 49-51 are deemed allowable over the prior art of record..

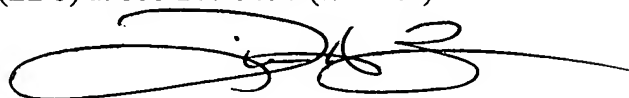

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
